Priest Says Poor Accommodations Keep His Parishioners From Attending Church.

More than 150 members of the Tower Grove Improvement Association, residents of the Tower Grove Park neigh borhood, attended a hearing of the Missouri Public Service Commission at the Planters Hotel this morning to ask for more cars on the Fourth street. Grand avenue and Tower Grove lines, and to protest against the rerouting of the Fourth street line west on Lafayette avenue from Grand avenue.

Herman W. Fay, president of the as ociation, and formerly chairman of the Democratic City Committee, was the principal witness of the morning. He created some amusement when Henry . Priest, attorney for the United Railways, testing his knowledge of stree service, asked him how regularly the cars ran.

"They call the Tower Grove line the banana line down my way," he said, ecause the cars are yellow and run i

The Rev. Father John F. Reuther, pastor of Holy Family Catholic parish, of 4133 Humphrey street, testified that he had difficulty in getting his parish-oners to attend church because of poor street car service.

"I have had plenty of experience with the service," he said, "but I didn't ex-pect to say anything about it until I was subpensed here. We took it like the Turks take it. It's your fate." Father Reuther said that when h sked parishioners why they didn't attend services, they would say

"Father, how can we. We have n street cars to ride on." He said that if a street car line wa extended to the vicinity of the church his people would have no excuse to remain away from church.

N estimating the meaning of German victories in Poland, it is useful to watch the Cracow ba ometer. Precisely as long as Russia is able to continue her offensive about the Galician stronghold, it is safe to assume that no German tri-umph in Poland is in any sense decisive. If Russia can take Cracow, still a rather remote possibility, no success of the Kaiser's force in the Polish provinces will counterbalance this triumph.

Looking at the present fighting in the East, it is well to remember that inside the Polish territory west of Warsaw no position has other than land is not included in the permanent Warsaw. All this sweeping back and forward in recent months resents the effort, first of the Russians, then of the Germans, and finally of the Rusisans to strike a blow at permanent lines, for the Russians on the Vistula, for the Germans on the Silesian marches.

Advantage With Russians. So far, both have failed, but in the whole eastern field the advantage has been and still remains with the Russians, because, while they have taken nearly all of Galicia, held it since September, twice penetrated East Prussia and Hungary, the Germana have failed to make any permanent lodgment in Poland.

As to the precise operation now go-ing on before Lodz the development of this seems to have been about as follows: Late in October the most ambitious of German efforts in the East, the advance to Warsaw, failed and the Germans were compelled to retire rapidly. They came west by Lodz to the Silesian frontier at Kalisz. At the same time an Austro-German army which had advanced to Ivongorod on the Vistula, south of Warsaw, retreated toward Cra-

Early in November Russian pursuit approached the Silesian frontier on the north, drew near to Cracow on the south. At the same time a third Russian force moved west Lemberg along the Carpathians, driving the Austrians across the San and back upon Cracow. Finally a fourth Russian army, now well within the East Prussian frontier, pressed on toward Koenigsberg on the north and toward Allenstein from Mlawa and Soldau on the In this situation it became abso

luely essential for the Germans to relieve pressure upon their northern and southern flanks; that is, upon the Germans in East Prussia, the Austrians in Cracow. To do this they gathered up several army corps from the armies which had withdrawn from Warsaw and Ivangorod, hastily transported them inside the Silesian frontier to the north of the Vistula and a point south of the Vistula in Posen. They were able to make this sudden concentration because they possessed railroads, while the Russians on their side lacked them. This army, starting from Thorn, with the Vistula on their left, moved rapidly toward Warsaw, following the Thorn-Warsaw railroad and the Vistula. To meet this nev attack Russia threw out her garrisons at Warsaw and other points, delayed the German advance by several engagements culminating at half way between Thorn and Warsaw. At the same time Rus sian troops from south of Lodz were hastily drawn north to meet the

German invasion, delayed but not

### SUFFRAGIST SEES PRESIDENT

WASHINGTON, Dec. Wilson was asked again today to indorse a constitutional amendment for woman suffrage and reiterated that the question was one for the states. The President congratulated Miss Martin on the success of the suffrage cause in her State, and declared that was the J. M. Garth at Webster Groves. Dr way to bring about woman suffrage. This was the first phase of the latest Poland campaign. At this point it seemed possible that the Germans, holding the railway connecting the main Russian army with Warsaw and established in its rear and front, might destroy the Russian army at Lodz. This was the point at which Berlin proclaimed the approach of

But the Russians countered rapidly bringing troops south from the Vistula, drawing them from Warsaw reserves, and from the East Prussian troops at Miawa. Thus in turn the Germans presently found Russian troops in their rear, between them and Thorn, while the Lodz army had again formed a line in their face. This was the point at which Petrograd, in its turn, proclaimed the apach of a tremendous success.

It is next to impossible to reduce this military situation to any clear statement. In fact, a Russian army about Lodz was partly enveloped by a German army in its front and its rear and between the northern army of the Germans and their base was another Russian army moving on In this situation the Germans did

two things: First, the troops which had been almost enveloped, cut their way out in what seems to have been the most desperate fighting of the war, giving and taking terrible losses, but actually escaping. At the same time Germany drew out of the west several army corps, and strengthening these with new formations, pushed southeast from Thorn northwest from Kalis toward

Both Fronts Straightened. Under this new pressure the Rus-

sians were forced to give ground on all sides, lost Lodz and were forced back at the north. Presently the two forces, whose lines had been so helplessly entangled, managed to straighten out into parallel fronts, the Russian facing west along the Warsaw-Cracow Railway east of Lods and some 50 miles west of War-

But in all this time the Russians did not let go at Cracow. In October, when the Germans were movin on Warsaw, they abandoned West to meet the attack. In November and thus far in December they apparent ly feel strong enough to keep up their campaign in Galicia. As the main purpose of the German offensive in Poland was to relieve Cracow, it seems so far to have failed. In viewing the eastern campaign it is safe to neglect the details of topography and the possession of cities. Until the Germans take Warsaw or the Russians break the Cracow-Thorn-Danzig line of fortresses the campaign amounts to tremendous

maneuvering, tactical playing for temporary advantages. Yet there is one detail that must be emphasized. Rusian numbers are steadily mounting. By compelling the Germans to draw on their western armies the Russians have compelled them to take the defensive in that field and opened the way to the French and British to resume offensive. More than this, they have inflicted terrific losses upon German armies, losses which cannot now be

Skillful Use of Men.

Checked here, rolled back there, it is now plain that the Russian avalanche moves on. Never in military history, perhaps, has there been a more skilful use of a few men to hold back many than Von Hindenberg is making in the East. His campaign will compare with that of Napoleon in 1814, of Lee in Virginia, but both lost ultimately, because all their skill was unable to hold back the masses of their opponents.

Berlin has set the example in warning the German people not to expect too much from the capture of Lodz. In fact, the Germans have saved an army at the sacrifice of the offensive in the West, won a little territory of no great value; so far, this is all. If the allies in the West can take advantage of the weakening of the German lines in front of them, Germany may have avoided disaster in the East at the cost of defeat in

Discharged Sailors to Be Kept on Lists; 90 Per Cent of Ships in Trim.

WASHINGTON, Dec. 10 .- Secretary Daniels told the House Naval Commit tee today that while the American navy should be "steadily strengthened in ar orderly way" each year, the sentiment of the American people was against making the United States into a military nation in competition with the heavily armed Powers of Europe. The Secretary's declarations, following

the remarkable testimony of Rear-Admiral Fletcher, commander of the Atlantic fleet, who yesterday told the committee there was only one navy in world-England's-to which the United States was not equal, came as a climax to two days' discussion of the preparedness of the nation for defense. Secretary Daniels decried demands to:

great increases in the army of bat-tleships and submarines and declared the United States already was a strong nation. He outlined this year's plan for two dreadnoughts, six torped toat destroyers, eight or more subma rines, including one of the sea-going type and the others for coast defense one gunboat and one oiler.

Would Continue Regular Program. He advised Congress not to act any differently in providing for naval strength than it would have acted if there had been no war in Europe. He declared that after the conflict abroad had been settled there would be many lessons made plain and he expressed the hope that the universal disarma ment might come then though no nation could afford to stop its construction program until an international agreement had become an

"There is no occasion," said the Secretary, "to have as big and powerful a navy as England, for instance, but we ought to have a powerful navy, steadily strengthened each year. Every Christmas day the Post-Dis patch Christmas Festival Association en tertains all the destitute of the city at linner. A great festival is given in the arena of the Coliseum for the children and their parents. There is gigantic tree and presents for all the little ones. To the homes of all destitute families and persons baskets of food are sent. All the "shut-ins" are supplied bountifully. Homeless unem loyed men are supplied with a bounti ful Christmas dinner.

No distinction of race or creed limits the benefits of this fund. It is an ac of Christmas hospitality on the part of those who have to those who have no It is a community act and the greater the number of contributors the wide and better the manifestation and influence of the social spirit. With smiles and words of happiness For everyone you meet:
Give thought to those who have no friends,
Whose empty stockings bear
Muless to their poverty,
Their lack of loving care.

Oh, ye who never felt the panks
Of hunger in your breast,
When seated at some festive board,
A welcome, honored guest—
Give thought to those who wander far
And lack a crust of bread,
Who know not where, when night shall come,
To lay their weary head.

Oh, ye who kneel on Christmas night
To thank our Lord above.
For all His tender mercy.
For all His acts of love;
Give thought to those whose way is
Who carry heavy loads,
Who struksle on with faltering step
O'er sough and stony roads.

From out your store of plenty, give
Some tithe to those in need
And in your heart and life alway
Will you be blessed indeed.
Give thought to such now while you can
And through the whole New Year
That marks of life another span,
God give you hearty cheer.

By Associated Press.
INDEPENDENCE, Mo., Dec. 10.—Jo seph Smith, president of the Reorgan-ized Church of Latter Day Saints, died his son, Frederick M. Smith, who will succeed him as president of the church and other members of his family, who had been called from various parts of the United States.

Joseph Smith was the son of Joseph S. Smith, the founder of the Mormon hurch. He was born in Kirtland, O. Nov. 6, 1832, and was taken by his parents to Nauvoo, Ill., where the headquarters of the church was for a time It was in 1860 that he became presi lent of the Reorganized Church of Lat ter Day Saints, which was opposed to church in Utah. As the head of this sect, he became editor of the Saints' Herald, the official organ of his denomnation, and since 1863, his teachings through that publication have been

ought eagerly by his followers. A few days before his death his six ons were called to his bedside and he instructed them as to their future conduct and the management of the church. He had a stenographer pres ent and his instructions were taken lown, probably to be printed and disributed among his 73,000 followers. Smith designated his son, Frederick M Smith, as his successor.

Congressman Attacks Executive's Attitude on Military Preparedness of Nation.

WASHINGTON, Dec. 10.—Representaive Gardner addressed the House today on his resolution for investigation of the preparedness of the nation for war. He prefaced his remarks by anuncing that he had introduced a bill to enact into law Secretary Garrison's recommendation in his annual report published today to recruit the United States army to its full war strength. A large portion of his speech Gardner levoted to an analysis of President Wilson's references to national defense in his annual address to Congress Tuesday. He declared the President had set up a "bogey man of straw" and that "if war were to break out today it would be found our coast defenses have not sufficient ammunition for an hour's fighting."

Only 120,000 Militiamen. "'We must depend in every time of national peril upon citizenry trained and accustomed to arms, says the President, Representative Gardner said. "But how are we to get enough citizenry, as he calls we ordinary

"Does the President realize that there are only 120,000 militiamen in this whole nation? Does he understand that 23,000 of them did not even show up last year for annual inspection? Does he know that 31,000 did not appear at the annual encampment? Is he aware that 53,000, or nearly half of this citizenry, never appeared at the rifle range during the whole course of last year?

"Where is this citizenry to get the weapons of war? According to the last report of the chief of staff we are short 316 field guns and 1.322,384 rounds of ammunition necessary to equip our militia in time of war. Last year Gen. Wood asked for enough guns and ammunition to bring the United States up to the standard of Bulgaria. That immodest demand was gently but firmly rejected." He here spoke of what he said was a shortage of ammunition for

coast defenses.
"I have proposed," he continued, "that an independent commission be appointed to investigate all these things to recmend to us a definite policy for our

"For the first time in the history of this country, so far as I know, a committe of this House has refused a hearing to one of the House's members." he said.

"Arbitration! What a grand word! All that Carnegie has to show for his money is an unprepared England, an unprepared Belgium. Possibly I ought to accord him one other scalp to his temahawk, although that scalp is made of imitation hair. COURT APPROVES SALE OF \$60,000 NUGENT HOME

Judge Directs That \$3000 Be Aside for Benefit of Widow and Minor Helrs. Circuit Judge Withrow yesterday de termined the homestead rights of the widow and four minor children of the late Charles W. Nugent in realty at Kingsbury boulevard, the Nugent residence, so that a clear title could be given to a purchaser. The sale of the property to James C. Jones, a lawyer. for \$60,000, was announced several months ago, but because the homestead nterests of Mrs. Nugent and her minor children, to which they are entitled under the law, had not been apportioned

clear title to Jones. Accordingly the widow, Mrs. Cora Nu-sent, filed a suit for this purpose. Judge Withrow, in approving the sale, directed that the sum of \$3000, the amount required by law, be set aside from the proceeds for the benefit of the widow and the minor heirs, to be invested in another homestead for them. There are eight Nugent children. The father, who was a member of the well-known dry goods company, died July 27,

MAN WHO KILLED GIRL, 12, PREFERS DEATH TO PRISON

Robert Bailey, 35 Years old, of 834 Chouteau avenue, who shot himself near the heart yesterday after killing Nannie Stricklin, 12 years old, who lived next door, said at the city hospital today that he preferred death to prison. His

condition continued critical. Bailey told of having had a wife and a-months-old son, both of whom died last May, about the time he followed Mrs. Clara Stricklin and her daughter from their home at 913 Franklin avenue

to the Chouteau avenue address. Bailey for three weeks had attended the Full Gospel Mission meetings at 1206
South Seventh street, and had asked
leaders there to preach his funeral sermon if anything happened him. He had annoyed Mrs. Stricklin by persisting in wanting to adopt Nannie and marry her when she grew up. She was a fourth grade pupil at the Madison

He Says Congress Should Prevent Action Which Might Be Cause for War.

By Associated Press. SOMERVILLE, Mass.. Dec. 10.—Assumption by Congress of authority to prevent states from violating by laws or lawless violence, United States treaties, would do more to prevent the pos another than increasing the army and navy, former President William H. Taft declared last night in an address

"The only real possibility of war that can foresee is the wanton, reckless. wicked willingness on the part of a parrow section of the country to gratify racial prejudice and class hatred by lagrant breach of treaty rights in the

for a state law, or by lawless vio-lence," he said.
"Congress should at once assmue au-thority for the national government to see to it that it can not be dragged into international difficulties through such blind selfishness, and this step would be quite as effective as imroving our military defenses. Indeed think it would be more effective to prevent the possibilty of war."

Congress could delegate power to the National Government, to the President and Federal Courts, Taft said, which would insure aliens peaceful residence and the right to do business in this

While deprecating the "mild hysteria" regarding this country's defenses, Taf: said he would increase the army from 25 to 50 per cent, insure the navy enough men to man the reserve vessels and pro-vide new artillery, chiefly for coast de

FLED FROM HOSPITAL TO DIE PENEDA

Through Coroner's Inquiry.

Wishing, as he said, to die at home, Albert O. Muir, 50 years old, a sufferer from tuberculosis, walked out of the city hospital Sunday and made his way, his hospital clothes, to his home. 1510 Montgomery street. "I've come back to die," he told his wife, as he sank into a chair. He suffered a sink ing spell soon afterward and died Tues

The facts about his death were reported to the police today, when, be cause of the lack of a physician's cer-tificate, the case was certified to the Coroner and the police were called on to vestigate the death.

The Corporal William L. White Camp, 10, United Spanish War Veterans, met last night at Masonic Hall, 2919 ue, and elected Capt. Wil liam H. Butler as commander.

Many Rumors Regarding Concrete Foundations Near London Prove to Be Groundless.

ce of the Associated Press. LONDON, Nov. 5.-Major-General Desmond O'Callaghan of the Royal Artillery has been investigating a number of alarmist reports which have had wide circulation in England, to the effect that German ordnance agents have for years past been preparing for the German invasion of England by secretly placing in factory foundations, tennis courts, and residences, deep concrete oundations, suitable for use with the neaviest German siege artillery.

These concrete foundations, according to rumor, were always discovered in positions "commanding" London, or Ed-inburgh, or Dublin. "All bosh," says Gen. O'Callaghan, who is inclined to be trifle annoyed at having to waste his time on "such nonsense."

No Danger to Public. His report to the public says in part:
"I have had the pleasure for the past few weeks of assisting Scotland Yard in the inspection of concrete platforms, and appraising their danger from a military point of view. Since the discovery of an alleged gun platform at Wilfes-den, reports of similar preparations for the hombardment of London have been received from all quarters. To sum ur my investigations, there is no reason to suppose that the floors or roofs of any factories, or tennis courts, constitute in any way a danger to the pub-

"Lawn tennis grounds in all direction have been reported and their tremendvouched for by nervous ous solidity amination to be of usual type, six inches and not six feet thick.

"It would be a waste of energy and ammunition for the enemy to bring over to England howitzers of the weight and unwieldiness of his 42-centimeter howitzers, which are the only ones requiring a concrete platform. Any of the smaller and more portable how-itzers, which are fired off their wheels, would very much better serve his purposes.

One of the factories reported to the police as suspiciously well-constructed, It was reported by nervous neighbors as It was reported by hervous and German "an alien company with a German exclusively Germanager, employing exclusively Gerdruggists.

nspector Hoffman Disappointed in Efforts to Stop Excessive Soot From Locomotives.

BUSINESS MEN HEAR CASES

Attorney for Association Talked of Hard Times, Said Company Was Doing Its Best.

The acquittal of the Terminal Association of two charges of violating the smoke ordinance by juries in Municipal Police Court yesterlay incurred the censure of Boiler and Smoke Inspector W. A. Hoffman.

"If such verdicts are to be expected rom all juries in St. Louis, the smoke batement ordinance might as well be epealed," said Hoffman to a Post-Disatch reporter. "The evidence of our nspectors was not seriously disputed by attorneys of the Terminal Association vesterday and the juries seemed to be loved by the plea that enforcement of the ordinance against excessive smoking would drive industry from the city.

Talks of Hard Times. Sam P. McChesney, son of Presiden W. S. McChesney Jr. of the Terminal association, in the course of his argument as counsel for the defendant talked to the jury of hard times and the number of people now out of employ ent and said the Terminal was doing the best it could.

John E. Bowcock, attorney for the ity, apparently accepting McChesney's argument as a plea of poverty on the part of the Terminal, retorted that the Terminal was a "gigantic trust" and hould not be relieved from the duty of beying the law while small property

Herman Duing, a member of the Merhants' Exchange and former member of the House of Delegates, was one of he jurors. Joseph Forshaw, stove merhant, who is treasurer of the People's League, was a member of a jury that oted acquittal.

The juries, drawn by deputies of Marshal Mohrstadt, were of business men and clerks employed in the downtown district. The first jury: Herman Duing, hay and grain merchant, 814 Clark aveue: Phil W. Gradwohl, department nanager, 1204 Washington avenue Frank Dunbar, assistant manager the Premium Manufacturing Co., 1104 St. Charles street; W. A. Fritz, bookkeeper-1 South Second street; Thomas U. Har vey, vice-president Ritter-Harvey Sales Co., 308 South Fourth street, and W. G. Joener, president Economy Mercantile Co., 1133 Washington avenue.

The second jury consisted of Joseph Forshaw, stoves, 111 North Twelfth street; J. B. Bruggeman, 207 North Eighth street; Robert M. Kinney, clerk, 1017 Olive street; Frank H. Koch, salesman, 904 Washington avenue; Homer W Klein, manager Samuel Cupples Wood-enware Co., and David J. Sabini, clerk 1528 Chestnut street.

Smoked Longer Than Limit. "The city has lost every case againg railroad that has been tried before ury, and has won only those decided the presiding Judge," said Hoffman "The law is not oppressive, and it has been observed by railroads, industrial plants, shopkeepers and householder every time it has been enforced by verdict. it is observed usually without the necessity of court action."

Hoffman said the department has

made 27,170 observations of steam rail-way locomotives since April 1 and has carried only five cases to court. Numerous infractions of the smoke ordinance were observed, he said, but only in cases where the Inspector believed the locomotive crew was grossly careless were suits filed. Warning were issued in the other instances.

The two cases tried yesterday were based on inspections, Nov. 2, of engines that emitted dense smoke for several minutes beyond the four-minute limit allowed by law, while they were standing inactive near city viaducts across

Third Case Is Postponed. Hoffman said there had been no difficulty in gaining convictions of those responsible for smoke violations in res! dences, apartment houses and places op-erating low pressure heating plants. The low pressure plants are the principal sources of air contamination at present, Hoffman said, and he has 30 cases pending in police courts against this class The eight deputies made 8804 observations of smokestacks other than railroad locomotive stacks between April 1 and Dec. 5, or a total of 36,974 cbservations during the fiscal year. A third charge against the Termina Association was postponed yesterday until next Wednesday, when a jury will try the case, which is similar to the ones submitted yesterday except that it was a Big Four locomotive in charge of a Terminal Association crew.

WAR INCREASES LIVING COST

WASHINGTON, Dec. 10.-Rapid rise in the wholesale prices of foodstuffs in the United States since the European war began is noted in a report today by the Department of Commerce. Whole-sale prices of leading articles of fac-tory consumption and many of the staple articles of food had shown a downward trend during 1912, and during 1914 until the outbreak of the war. Between Jan. 1 and Oct. 31, this year,

granulated sugar increased more than 11/2 cents a pound; wheat 30 cents a bushel; family beef, & a barrel; tes, 24 cents a pound; corn, 5 cents and oats 8 cents a bushel; native beef steers \$1.65. Coffee prices decreased almost 2 cents a pound and mess pork \$2.25 barrel.

#### WOMAN TO ADOPT CHILD FATHER CANNOT KEEP

ST. LOUIS POST-DISPATCH

Mrs. Minnie Bowersmith, 2136 Chouteau avenue, who has taken Elmer Slonski of months old son of Mike Slonski o 2446 South Third street to adopt him as her own son, told a reporter today that when she takes out adoption papers she will name the child Elmer Marvin Bow-

She said she had no reason for choos ing Marvin as a name other than it sounds pleasant. Since Saturday, when she became custodian of the child in response of Slonski's ad in the Post-Dis-patch, Mrs. Bowersmith said the child has behaved beautifully except at night. Insurance Statistics Indicate That Total Abstainers Survive Occasional Drinkers.

OVERWEIGHT DANGEROUS

Policy Holders Who Are Either Too Light or Too Heavy Precarious Risks.

Special to the Post-Dispatch. NEW YORK, Dec. 10 .- That the use of alcoholic beverages shortens life in this country was reported as a statistical fact to the Eighth Annual Conrention of the Association of Life Insurance Presidents here this morning. Figures on the subject were presented by Arthur Hunter, actuary, in connection with the finding of a mortality investigation into the lives of 2,000,000 life insurance policy holders, covering a

"Among the men who admitted that they had taken alcohol occasionally to excess in the past," said Hunter, "but whose habits were considered satisfactory when they were insured, there were 289 deaths, while there would have been only 190 had this group been made up of insured lives in general. The extra mortality was, therefore, over 50 per cent, which was equivalent to a reduction in the average life of these men

of over four years.
"The committee of the Medico-Actuaial Mortality Investigation did not make a report on the mortality among otal abstainers, but sufficient statisics have been published by individual companies to justify the statement that persons who have always been total abstainers have a mortality during the working years of life of about one-half of that among those who use alcohol to the extent of at least two glasses of whisky per day."

On the subject of tuberculosis, Mr. Hunter said:

"Unfortunately, these statistics 'do not show definitely whether or not a predisposition to tuberculosis is hereditary, but it has been indicated that there is a predisposition to light weight, which is a condition favorable to the development of tuberculosis. Among young men who were, when insured, at least 25 pounds under the average weight and who had a parent, brother or sister die from tuberculosis, out of every 10 deaths five were due to tuberculosis. "There is no doubt that marked over-weight has a material effect in decreasng length of life, especially at the middle and older ages. For example, among men 40 pounds above the average weight the lifetime of those who entered the companies at age 45 was bout four years less than that of men of normal weight."

#### CHEMICAL AGENCY IN **NERVES CARRIES SENSATION**

Experimenter Asserts Gas Is Given Off When Messages Are Sent to

Central Consciousness. CHICAGO, Dec. 10. -- A chemical agency in the body operates in the nerves to carry sensation, according to an unacancement by Dr. Sairo Tashiro, a ember of the faculty of the Physithe National Academy of Science.

As a result of years of experimenta work he had discovered, the Japanes instructor said, a relation between ex helations of carbon dioxide and the ac tivities of the nerve fiber carrying sen-sations to the brain. When stimulated and carrying a message to central con-sciousness, the nerves underwent a

gas, he asserted. James F. Grove of the Botany Depart ment of the University of Chicago liam Crocker had collaborated, stating that common cereals could be kept in celd storage five to 15 years.

Ousted Judicial Nominee Tells Louis Detectives Life Has Been Threatened.

Frank X. O'Brien of 2811 Wash street, who was legally ousted last month in Indianapolis as the Democratic nominee for Juvenile Court Judge, yesterday appealed to the Detective Bureau for protection against "Gray-haired" Tom-my Quigley, an ex-convict, who, he

said, has threatened his life. O'Brien had accused Quigley of giving Indianapolis authorities information re-sulting in disclosing that O'Brien had served a term in the St. Louis Workhouse 18 years ago.

Quigley resented O'Brien's assertion simply because he did not want his associates to think he is a "snitch."

Attorney-General Says Supreme Court Ruling Has Been Evaded by Re-

WASHINGTON, Dec. 10.-The prin cipal recommendation of Attorney-Genaral Gregory in his first report to Con-gress, made today, was for an amend-ment to the commodities clause of the interstate commerce act designed to prevent common carriers from trans-porting products over its lines in which they have any interest whatsoever.

The Attorney-General referred to the

difficulty encountered in attempting to break up the hard coal combination in Eastern Pennsylvania, where the rail-roads have met recent Supreme Court decisions, interpreting the commodities clause, by the organization of corporations whose stock is distributed ratably among stockholders of the railroad, with its management dominated by the railroad.

Illinois Recount Refused.

Receiver for New City Complaint Commission Is Said to Be a Smiling Optimist.

TRAINED FOR THE PLACE

Edward G. Marsh as Railroad Passenger Agent Has Record for Absorbing Kicks.

Edward G. Marsh's middle name is loodnatured, his acquaintances say. The new City Complaint Commission, or Kick Board, which has selected him as its secretary, hopes his smile will not come off when the kicks come thump-

sition Marsh will have to be set down as an incorrigible optimist. He has held the loser's end in two elections in the last two years and he has been for nine years under fire of an often queruicus traveling public as a railroad city pound of his very comfortable weight given anyone a short answer. When the framers of the new Charter

decided to make the Kick Board and conorary body, of three unsalaried members, with a secretary at \$200 a year as the only salaried officer, they whit tled out a job for a fat, goodnatured man. For they made it certain that the commissioners would leave the secretary to run the office and would come business was and, perhaps, to register a few individual kicks of their own.

Marsh Is Used to Kicks. Marsh will go to the city hall and go to work as soon as he can close up his ticket office business or can explain it to his successor. Among the details of the business are a kick from a man who says a waiter overcharged him is dining car; a kick from a woman who bought a ticket and didn't use it and comes in every day to know wh the auditor loesn't hurry up and send her money back; and sundry kicks about baggage, stopovers and train service, which don't come in the city rassenger agent's jurisdiction, but which are unloaded on him by the public be cause he is the man who sold the ticket.

Marsh says he tries to be as polite the tenth time as he is the first time. Anyone can hear a kick patiently the first time, he believes; but when it omes to hearing the tale repeated and e-repeated, especially when one is also wanted on both telephones at the same time-then, he thinks, good nature is nething of an art.

Borrowed Man on the Job. The Kick Board was formed to hear complaints against public utility com-panies, and against city departments or employes. It might be supposed that the party-line telephone and the passenger-proof car door would run a close race for first position in the number of complaints received; but the experienc of the board thus far, working with a emporary secretary borrowed from the Mayor's office, shows that most of the complaints are going to be about mor weighty matters.

The first snow, which fell yesterday, gave a reminder that the board may soon have to listen to indignant dwellers in upper flats, complaining against their downstairs neighbors who have no shown the required activity with the snow shovel.

Friend of John Schmoll. Marsh will try to send kickers away happy, with the assurance that "the lepartment." Then he will see that it s referred to that department, and will try to get something done, if anything done, so that the kicker wil come back next time in a milder fram of mind. For he realizes that it takes omething beside optimism and smile: to run a successful kick bureau. The new secretary is a friend of City Chairman John Schmoll, and had Schmoll's support in running for the omination for License Collector last August, but was beaten by Louis Alt He ran for State Railroad Commissioner in 1912 and ran 10,000 votes ahead of his ticket. He is nearly 42 years old, was once a 'rah-rah youth at Northwestern University, and has been in the rail-road business since 1898, first with the Wabash, then with the cotton Belt. He lives at 3534 Juniata street.

What Is Business Waiting For?

To the Editor of the Post-Dispatch Is it not a fact that a large percentage of in dustrial depression is due to the mental attitude of the people more than anything else? #### The Defaulter

To the Editor of the Post-Dispatch, The cartoon of the defaulter in last night's paper was good, but should not the finger of scorn be pointed at the high-brow employer who pays wages so inadequate that it will not furnish the necessities of life for even two in a family, let slone house rent, clothing, etc., viz.: \$2 per day?

How 38 Indians Died.

To the Editor of the Post-Dispatch In your editorial of Dec. 2, "Arizona's Black Thursday," you say the "passing out" of 11 men Dec 19 "will be the most successful wholesale ling ever effected." If you refer to white aber, 1866, 38 Sioux Indians were hung scaffold and dropped simultaneously into by the stroke of the Sheriff's ax, nocked out the pin holding up the platform. this was in Menkato, Blue Earth County, Minne a the writer's home. The whole platform and ber in it were of solid black walnut and ny canes are now in use made from the timber the scaffold. #### MEN CHEAPER THAN HOGS.

Popular sentiment in the vicinity of Tamms Ill., is very bitter against Thomas Clapp and Lester Moody, the youths who confessed while money. Until the trial of the two young men their safety will be a special problem for the officers.

The crime is, indeed, of unusual enormit. The cold-blooded deliberation with which it was planned makes a shocking impression. The sordidness of the motive which swayed the twoone but 21 and the other but 16 years of agewhen they still had the most useful portions of their lives before them chills the sympathy that might otherwise be felt for youth and inexperience. The elderly brothers, against whom the murderers did not have even a boyish grievance, forfeited their lives because they were believe to have a few hundred dollars in the house.

But who was to blame because Abner Clapp attained voting age without being able to read or write? Why was it that he lacked the discretion that sound schooling can give even to those not yet matured by years? Why had nothing been done to neutralize in Lester Moody's mind the distorted conceptions produced by idealized accounts of Jesse James adventures?

The statement of Judge Paul Little of Fort Smith, Ark., that human life is cheaper than hogs has only the justifiable exaggeration needful for emphasizing a phase of truth. Juries will convict for stealing a shoat, says the Judge, but hardly one out of 500 will convict for murder when excuse is given to acquit.

These two boys have justly earned the legal consequences of their offense. But would they find themselves in their present frightful position if they had grown up in surroundings in which the sanctity of human life was taught by example as well as precept, in which deliberate murder was held to be one offense without extenuation? When the shoat is placed above the man, Clapps and Moodys become a logical development.

The murder record of the country has reached an appalling figure. But what will it be when the boys have grown up who are now being taught by object lesson that the taking of human life is hardly more than a misdemeanor?

#### ONE DAY OF JOY.

The great number of unemployed persons will make this year's Christmas a gloomy season unless those who have provide good cheer for those who have not. The war has added to the number of families and individuals in distress and has increased the distress of the destitute.

Shall not all the children of St. Louis share in Christmas joys?

Shall not the destitute families gather around well-supplied dinner table on Christmas daythe day of good will and good cheer? Shall not the poor shut-ins have some Christ-

mas joy? Shall not the homeless, unemployed men have

one bountiful dinner in comfort? The men and women who are working with the Post-Dispatch in preparing the Christmas Festival are trying to answer "Yes" to these questions. They are working for the whole city in a great act of Christmas hospitality, which will assure every man, woman and child not otherwise provided for a happy Christmas.

The success of the work depends upon the co operation and sid of St. Louisans. The more contributors to the Post-Dispatch Christmas Festival Fund, the more hosts, the more guests, the more happiness.

Not less than \$10,000 will be needed to send a basket to the home of every destitute family, to dine every homeless, unemployed man and to give every poor child a joyous day at the Coliseum with a gigantic Christmas tree, an entertainment and gifts.

He had been traveling in this country, studying If the railroads complain so loudly over a little educational work, and had found in the Martha matter like that, in a year when everybody is Berry School at Rome, in which Mrs. Wilson was much interested, a model of one kind of school needed in Japan. The wager in question was the out-

a shooting trip.

The wager in question was the outcome of a heated discussion on personal courage. French had bet \$100.00 that Turner would not get into an open grave at midnight and drive a nail into the coffin of the departed saint or sinner; and Turner had unnes-itatingly accepted the challenge. Mason, as I said, was to be stakeholder, and I, as his friend, was permitted to be a witness. The time appointed for this weird proceeding was midnight, and the affair was to be kept strictly

For a small amount of money, and a larger amount of whisky and tobacco, four negroes, none of whom could be persuaded to undertake the work until that number had been secured, had agreed to open a grave in the forlorn, neglected little churchyard, about a mile from the station.

#### We Passed the Evening

in Telling Ghost Stories N the evening I was duly introduced to French and Turner, and we passed the time until the appointed hour by alternately playing billiards and cards and telling ghost stories. Throughout our weirdest tales Turns. Throughout our weirdest tales Turner, however, listened unmoved, even adding a few himself. He was a big, handsome fellow of about five and twenty, and before the end of his first year at college, where he had been center rush of the football eleven, had gained the reputation of being a fearless daredevil, and a total stranger under any and all circumstances, to that sensation known as fear.

The night was beautifully clear and calm, and the whole village was wrapped in solemn silence when we noiselessly crept out of the hotel on our strange errand. The negroes had gone ahead to do their share of the work. Turner, as he received from the stakeholder the nails and hammer, re-marked: "It seems a shame to be forced to disturb the spirit of the departed; but a challenge is a challenge, and I

shan't weaken."
Influenced by his light-heartedness, we started off in high spirits. But after the first half mile of our walk we all grew strangely depressed and silent With every step the scene became more solemnly impressive and calculated to work on the imagination. The brilliancy of the monlight on the tall pines made the scattering gravestones on the hillside on our left stand out like miniature ghosts, and the rugged and Riva Ridge peaks in the distance like miniature ghosts, and the rugged old Blue Ridge peaks in the distance leoked hideously grim and threatening. Once the stillness was broken by a frightened rabbit that darted into the read and ran in front of us for several hundred feet, then suddenly turned and, sitting upright, gazed at us curiously for several moments. As we turned off the main road and entered a narrow lane, we were startled by an owl that for several moments. As we turned off the main road and entered a narrow lare, we were startled by an owl that fluttered from among the pines, hooting ominously as it circled slowly above us. A moment later sounds of weird music floated through the night. By a common impulse all of us halted in breathless expectancy. Gazing up the slope at the end of the lane, we beheld in the crystal moonlight the four darkies sitting about the newly opened grave, chanting with weird solemnity but true jubilee rhythm:

"Massa's in de col', col' ground." We stood entranced until the last visiling cadence had died away; then, shaking off the spell produced by the impressive scene and melody, proceed end to the grave. It was that of a man who had been dead about two years, but the coffin, so the negroes said, was in a good state of preservation. The dark pit yawned cold and dismal as, one by one, we gathered around it.

\$2.50 CASH-\$2.50 A MONTH

### A Christmas Suggestion That Will Appeal to Hundreds of Homes

The Divan-Bed Parlor Set

Presents all the style and appearance of a handsome Parlor Set by day—it consists of a beautiful Davenport, Arm Rocker, Arm Chair, Library Table and Art Lamp—the Divan-Bed Davenport can be instantly converted into a large size bed—as broad and comfortable as any bed.

The Construction

All of these pieces of furniture are rich and beautiful in design—made of solid oak in natural finish, showing the beautiful grain of the wood. The workmanship is of the highest order—and every piece will give the utmost service and rettefaction.

The Upholstering

The Divan-Bed Davenport. Arm Chair and Arm Rocker are richly upholstered in a fine quality of imitation leather—a fabric that looks exactly like genuine leather—and will wear even better when put to the test of actual wear—as it will never peel, crack or rub as real leather often does.

The Divan-Bed Davenport

It is made on the new principle—the springs, mattress and bedding are under the seat and come into position when the seat is turned. Has a set of comfortable bedsprings which support the mattress when the Davenport is open as a bed.

The Library Table

This handsome piece of furniture matches the balance of this outfit—it is made of solid oak, in massive Mission design—has 24x63-inch top—roomy drawer and large lower shelf for books and magazines—the very table you would select above all others to go with this Parlor Set.

The Art Lamp

Is a real beauty—has heavy brass standard—art glass shade mounted in solid brass—and is fitted for gas (with tubing) or for electricity (with cord)—and gives the finishing touch of elegance to this outfit.

## Organized Baseball Finds the Feds Easier to "Run Down" Than to Run Over

Rolla Eleven Must "Clean House" as to Eligibility, to Gain Recognition.

#### Missouri Has Yet to Take Up Rolla's Case

WHAT will be the attitude of Missouri University toward the scheduling of a football game with the Missouri School of Mines team, next year, is interesting alumni here. The action of the Washington and St. Louis universities in refusing to schedule the Miners has led to conjecture as to whether the Tigers will follow suit. An inquiry by the Post-Dispatch elicited the following reply:
Columbia, Mo. Dec. 10.—Director of Athletics Brewer today stated that no official consideration had yet been given the scheduling of a football game with the Missouri School of Mines for 1915. That is, unless the Miners hereafter adhere strictly to the rules and regulations of the Missouri Valley Conference.

Several days ago the Rolla Athletic Board sought a 1815 football game and also a series of basketball game and also a series of basketball game with St. Louis University. It was returned the answer that the St. Louis University could not consider further athletic relations unless the Miners tightened their eligibility rules and played under the M. V. C. code of laws.

Father Padiserg, Director of Athletics of the Billiken school: stated yesterday that he did not think that the upstaters would introduce the so-called "simon-purism," but that if they did there was no reason why St. Louis U. should not play them. Washington University several days ago flatly turned down an offer of Rolla to meet in football and basketball.

#### Southern Elevens Coming.

Coach George Keogan of St. Lou versity stated that the Grand aveuniversity stated that the Grand avenue school is busily engaged in lining up the best schedule since the days of "Coke." Two games will be played with teams below the Mason and Dixon line. Those Southern universities that are being dickered with are Vanderbilt, Tennessee, Sewanee and Mississippi. Northwestern will probably be seen. The dates of the games will not be arranged until the game with the Pikers is set. All St. Louis J. is worked up over the dead of a Tha ksgiving day game with

#### Early Lead Fails to Win for Benson Over Lean; Morin in Front

Jess Lean, well known locally and now the representative of Chicago in the Interstate Three-Cushion League, last night played an uphill match and defeated Frank Benson, the local player, 60-44, at the Rex. The game was a long one, Lean averaging .46.

At one stage of the match Benson held the lead, 40-31, but Lean, starting with his high run of five, then hurriedly acquired the victory. Benson now has won two and lost five. Charles Morin, another Chicago player, leads the league with a mark of 8.5.

JOB AS C. B. C. COACH Fred Dennie, former St. Louis U. coach and referee of the C. B. C. Rolla game last Saturday, informed the Post-Dispatch Thursday that he was not seeking the job as coach of the 1915 C. B. C. team.

"I'm in the engineering business and intend to stay here," said Dennie, "and nothing but a tremendous rich contract could induce me to return to football. I dont want to coach C. B. C., Rolla or any other team. I'm through with the gridiron "ame."

### The Federal League Is a Pretty Lively Corpse

Well, Work's No Disgrace.

THERE'S more talk than money in connection with the "paid football player." seldom will facts to substantiate such allegations be found obtainable.

There may be here and there schools maintaining football elevens strictly for advertising purposes, that actually disburse coin to the men; but for the most part the recruiting of football elevens, either by ambitious soaches with a reputation to make or by over-enthusiastic alumni or faculty athletic associations, involves mainly schemes by which the coveted player can be put to hard work. Thus, a good football player, eager to get an education, but lacking the means, will readily find institutions where a job will be found for him—real work, not a "straw" berth. In accepting this sort of an arrangement the student is undertaking to

Play football of an exceptional quality.

Orr was credited with touchdowns during his career here. In his list of plays, too, Cochems included as a different play the same attack and formation, with different individuals operating it.

His forward pass combinations were numerous, both as to individuals involved, length of pass, point of attack, men handling and receiving the ball, and fakes, both kick and straight carrying, from the same formation.

The kick formation alone was responsible for fifteen plays under the resourceful Cochems. And, as he was a pioneer in the "new" game, his stuff was then absolutely new, and it went through, sohe of it, for lack of an intelligent and studied defense seldom will facts to substantiate such allegations be found obtainable.

K ep up in his studies with the rest of his class. Work at the job found for him.

Any man who has the ability, industry and gameness to go through with such a proposition, far from being frowned upon, should be patted on the back and given a chance, eligibility ideals notwithstanding. It takes a man of mental as well as physical stamina to put over undertakings of this sort.

WHEN Dr. Eddie Murphy, former quarterback of Eddie Cochems' football team machine, told at length why the Missouri School of Mines eleven compared with the famous machine of which he was quarterback and field general, as a road pest to Barney Oldfield's green dragon, he attacked a hornet's nest. The following communication, written on the stationery of C. C. Bland, Rolla, expresses the opinion of the Miners on the subject:

Sporting Edditor, Post-Dispatch:—In answer to Eddie Murphy's story about the Rolla team, we would like to say that we concessary to pulay to beat C. B. C. tackle buck and end run, so it was untof plays.

Even though Mr. Murphy, calls us a "one-lung cycle car," we falled to show the need of chains in the mud. Also, we were handlcapped with a large deposit of carbon in the cylinder, as three of our regulars were not in the game.

The general average years of playing of the plays he the team, summing up nesting the possibly total 73. So, with all deouglessibly total 73. So, with all dool ont think that he ever used 73 plays in his whole football career.

WE ARE THE GAMEST BUNCH OF SCRAPPERS IN THE WORLD!

#### What Cochems Said.

N this particular the writer re members, at one time, that Cochems complained to him, after Cochems complained to him, after one game, of Murphy's failure to use certain plays they had carefully gone over, stating his quarterback had never used even half of the team's repertoire.

At that time Cochems asserted his team was conversant with 66 plays, including variations.

Cochems, it must be remembered, used every man on his 1907 team as a ground-gainer. Even Center Rush

Every now and then we read of "football salaries" and "mercenaries," but

"Kilbane did not have one round, so one-sided was the tilt. Kilbane simply would not fight, and even his home State supporters tried to goad him into show ing more spirit by hissing him." That the bout was a real card, however, was shown by the size of the house. Thirteen thousand dollars worth of humanity paid to watch Johnny fail.

#### C. MACK "CAN'T SEE" **NEW YORK JOB; WILL** STAY WITH ATHLETICS

PHILADELPHIA, Dec. 10.—"I ouidnt' see managing the New York couldn't see managing the New York Highlanders with a telescope. Sell the Athletics? Why, you can bank every dollar you ever saw that our ball club is not on the market," said Connie Mack today. "That should be sufficient to spike any more of these wild stories." sufficient to spike any more of these wild stories."

The first of the rumors from New York that Mack spiked was that he was to retire from the managerial berth with the present American League champions and devote his energies to producing a winner in New York under a new ownership for the Yankees.

York under a new ownership for the Yankees.

Next in line was a story that the Athletic owners, of which Mack is 50 per cent, had wearled of supplying first-class baseball to fourth-class patronage, and would sell the Mackmen to a local syndicate.

"Now, don't fail to make that statement about my going to New York too plain," said Mack. "I am not going: never was going, and unless things turn upside down I never will go. I'm sticking right to Philadelphia; I am going to manage the Athletics and I'm not going to sell my share in the club. That should answer as far as I am concerned."

### Ward Willing to Let Marquard Return if

Giants Prove Claim NEW YORK, Dec. 10.—Rube Marquard, southpaw pitcher of the Glants, will likely be seen again in a New York uniform this season, providing Manager McGraw doesn't trade him to some other National League club soon. Robert B. Ward, owner of the Brooklyn Federal League club, has sent a letter to President Hempstead of the Glants in which he declared that if the New York club could substantiate its claim to the pitcher's services he would return Marquard to the local club.

The Glants say they have a formal written agreement with Marquard.

Football Peace Seems Further Away Than Ever Since Holiday Games Announcement.

That peace in the soccer football world is as remote as it is in Europe, seems evident from the announcement made by the Robison Field League last night that it had arranged holiday exhibition games to take place here against the Hamilton, Ontario, Canada, team. This is an outlaw or-

### How Would YOU Make This Shot for "Position"?

THE accompanying diagram the first of a series of "billiard problems" to be submitted by Charley Peterson, referee of the coming Hoppe-Slosson championship match, through the Post-Dispatch. It is a test in straight rail billiards, the proposition being to count and attain position.

This is no trick shot. The white ball is frozen to the rail, while the red ball is % of an inch from the cushion. The cue ball is ½ inch from the cushion. How would you play it for position?

There is more than one way to make the shot, but only one "right way." Peterson will give the correct answer in Sunday's edition of the Post-Dispatch.

In the meantime you are privileged to submit an answer. Send it to the Sporting Editor of the Post-Dispatch. Other instructive problems, such as you encounter daily, will be submitted.

Have You Met Him?

THERE was a man in our town And he was wondrous wise; In fact, it was impossible
To take him by surprise.
Regarding Walter Johnson's jump
He said he'd had a letter
From Walter, asking his advice
And if he thought he'd better.

When asked if he had heard about
The jump of Eddie Plank,
He modestly admitted that
The Feds had him to thank.
I gazed at him incredulous
And asked him how he knew it;
He said, "Why, I'm the very guy
That put him up to do it!"

I asked him if he'd heard about
The famous Collins dicker;
He lamped me with a scornful eye
And answered, "I should snicker!
In fact, I engineered the deal,
You poor benighted runmuy;
I did it as a favor to
My old side partner, 'Commy'."

### Time is money; it also flies.

Hence, riches have wings. Coach Glenn Warner of the Carlisle Indians has jumped the reservation and hit the trail for Pittsburg U.

### Need a New One.

Sherwood Magee has informed Manager Pat Moran that if he is traded to the Cards he will do a flip-flop to the Feds. Inasmuch as Huggins is not conducting a home for aged and indigent prize fighters, we presume the "Rabbit" will rally from the blow without any trouble.

From what we gather by reading the reports of the doings of the baseball magnates now assembled in the City of New York, State of New York, Borough of Manhattan, the National and American Leagues have asked for waivers on the well-known flag of truce.

Roger Bresnahan offered to let his old friend, John McGraw, have Heinie Zim in exchange for Burns, Doyle, Fletcher and Smith. As regards the rest of the team and the grand stand, Roger didn't seem to be interested. Due to a rugged constitution, McGraw is reported to have stood up under the shock remarkably well and will be up and around in a few days.

#### Toss of Coin Decides 1915 Piker Captaincy in Favor of "Poge" Lewis

The 1914 Washington University var-sity football squad met for the last time yesterday afternoon and elected Poge Lewis to the captaincy of next season's team. Besides this the players received lettered sweaters and posed for received lettered sweaters at earn picture.

It was by the closest margin that Lewis was elected over Ralph Gray, a single vote being the difference. Two weeks ago, when the team first assembled to vote, the result was a deadlock between Lewis and Gray, each man receiving eight votes. However, at this colving eight votes. However, at this colving eight votes. A new Committee on Constitution was elected at the meeting of the National League yesterday. The constitution of the parent body was considerably rundown, so by the way of an infusion of new blood Schuyler Britton was made a member of same. Looks like first division!

But the plot has falled. The other N. L. clubs refuse to gamble on such a proposition and have advised fluggins to that effect. Only two teams in the League could consider such a proposition. They are New York and Boston, the money-makers of last season. But Stallings intends to stand pat on his world's champions, while McGraw already has 52 players under contract, exactly 31 more than the League will permit him to retain after May 1, if the magnates are sincere in the intention of respecting the 21-player limit rule. So this throws Huggins and Britton back on their own resources, forcing them to deal direct with the players. Whether such men as Peartit and Wingo, the ring-leaders in the jumping, can be induced to turn their backs on the Federal League and return to St. Louis where the mas are a bit hostile, is a question.

If the club loses claim to these three men, Hug will find it easy to hold his squad within the prescribed limit of 21 men. Not counting a few bush league pitchers, including Meadows, the only player who wears spectacles on the diamond, Hug has only 21 men in his squad at this date. Broomhall cabled: "Advices received at Liverpool by private houses report frost over a wide area in the province of Buenos Ayres Tuesday night, resulting in damage to wheat. Our agent confirmed last night that frost was rather general and that wheat suffered. This morning he said: "Weather last night appeared settled and warmer.' In Great Britain an official report places acreage of wheat as 10 per cent increase. The general outlook is favorable."
Liverpool wheat closed unquoted; corn firm, unchanged to 4d higher.
B. W. Snow says: "The general admission that frost was experienced Tuesday and Wednesday over the largest part of the province of Buenos Ayres indicates material possibilities for wheat damage. In the extreme North the crop is ready to cut and only a heavy frost would injure it. In the extreme South, where naturally the frost would be heaviest, the crop will not mature for three weeks to come. The province has secund 5,000,000 acres and in the important territory of the West and South there is an aggregate of 2,000,000 acres or more where the stage of devalopment is such that material damage is possible."

AFTER EARLY DECLINE CHICAGO, Dec. 10.—Wheat suffered a material decline in price today largely as a result of the British victory in the South Atlantic removing most if not all danger of German interference with expected big Argentine shipments to Liverpool. Comparatively steady cable quotations, however, and reports that frost had caused serious crop damage in Argentina, led to some hesitancy here at the start. There were also advices that Emperor William's condition had improved. After opening % % to lower to %c higher, the market rallied a little, but then slid downgrade.

downgrade.

Corn developed strength, owing to rough weather that diminished receipts. Demand, though, was not of an urgent character. The opening, which varied from a shade off to a like advance, was followed by a moderate general advance.

Shorts and exporters' buying steadied the oats market. Trade, as a whole, however, lacked volume.

Lower prices for hogs weakened provisions. Buyers were scarce.

The market became overseld on baseless rumors that Emperor William was dead. A rebound followed that wiped out all the decline. The close was unsettled % % to % c above last night.

Corn and oats futures closed steady.

Action of New York Central Price Gains 1 Points at \$105; Board Not Expected in Financial District.

NEW YORK, Dec. 10.—The board of firectors of the New York Central & Hudson River Railroad yesterday dedided that the dividends on the stock of that road, usually payable in January, will not be declared at this time, according to an announcement made by A. H. Smith, president.

An official statement gives as a reason for postponing dividend action the approaching consolidation of the New York Central with the Lake Shore & Michigan Southern Railway and various other subsidiary roads of the socialed Vanderbilt system.

The directors of the New York Central and the Lake Shore roads have expressed the opinion that payment of dividends after the consolidated companies and not by the boards of the consolidated companies and not by the boards of the consolidated to sea expected to become effective Jan. 1.

The action of the directors came as a consolidation is expected to become effective Jan. 1.

constituent companies. The consolidation is expected to become effective Jan. I.

The action of the directors came as a surprise to Wall street, as New York Central stock has been relatively firm and today was quoted at \$1\%. A year ago it was selling at \$2\%. Best opinion on the "street" seems to be that the dividend has simply been deferred until the Lake Shore consolidation is completed. Union Pacific is a large holder of New York Central stock.

The weather map showed further snow over the winter wheat belt, and the drouth in Kansas has been relieved. Trade reports continue irregular.

NEW YORK, Der 10.—Out of 10 different bond issues traded in during the opening 10 minutes of today's market, the only two showing any change whatever were St. Paul convertibles and American Telephone convertible 44/58, which gained slight fractions. All the early transactions were in small lots, with the exception of United States Steel 65, in which a block of \$21,000 face value changed hands.

The forenoon's trading was much be low yesterday's, both as to volume and number of issues traded in. The trend was again reactionary. COTTON MARKET SHOWS AN UNCERTAIN TREND

NEW YORK, Dec. 10.—The cotton market was irregular today, and after opening at an advance of 2 to 3 points, sold about 2 to 7 points net higher on covering, and the relatively steady cables. The better tone of the New Orleans market probably inspired some covering by local sellers of late yesterday, as yesterday's late reaction appeared largely due to a break in the Southern market, and the showing of Liverpool also suggested that there had been no particular pressure of apot offerings over night.

The Government's estimate placing the crop of this season at 15,966,000 bales, excluding linters, proved larger than had been foreshadowed by any of the private estimates of far published. The production of lint is estimated at 7,-637,118,000 pounds, or 69,500,000 pounds more 637,113,000 pounds, or 69,500,000 pounds more than in 1911.

While the production exceeds any crop ever grown, its value will be far less, and smaller than any other year during the past five. Based on the average price of 6.5 cents per pound on Dec. 1. the lint is worth \$851,826,884, while last year it was valued at \$851,160,000. \$887,180,000. The average of 85 estimates by Cotton Exchange members indicated that the Government estimate was expected to show about 15,400,000 bales, excluding linters. Trading continued very quiet during the middle of the day, with active months some 3 to 6 points net higher. The close showed leases

Government Estimate Indicates Record Yield; Crop Last Year 14,156,486 Bales.

WASHINGTON, Dec. 10.—More exact information as to the size of this year's cotton crop, which indications point to being probably a record one, was given today when the Department of Agriculture in its final estimate announced the total production would amount to 15,966,000 bales of 500 pounds, gross weight, exclusive of linters. This compares with 14,156,486 bales last year and 14,795,367 bales, including linters; 13,703,421 bales in 1912, and 14,312,745 including linters; and 15,692,701 bales in the record year 1911, and 16,250,276 including linters. The average total production,

exclusive of linters for five years, 1908-12, was 12,850,297 bales. The production of linters is about 600,000 bales annually.

The final official figures giving the exact size of this year's crop will be issued by the Census Bureau next March when complete statistics from the ginneries have been complled.

While this year's crop is a large one its value will fall far below that of last year, because of the price of cotton. Last year's crop, a record in point of value, was worth in the aggregate \$1,043,760,000, the value of the lint being \$387,160,000, and of the cotton seed \$156,600,000.

ST. LOUIS MONEY MARKET Something of a deadlock exists at present in St. Louis. Bankers do not seem anxious to meet the lower rates prevailing at other centers, and in some cases are holding off rather than taking on large amounts of 5 per cent paper. At the same time conditions govern each individual borrowing operation. Some are obtaining funds as low as 5 per cent, while others have to pay as much as 6 per cent to meet their needs. Deposits seem to be holding up very well at this writing, and there is not much disposition to expect any startling changes over the first of the year.

are," said Mrs. Jarr.
"Oh, THEM!" cried the visitor. "How can you think it? Why, you know the Countess is an impossible impostor. She affects a foreign accent when, as a matter of fact, she's a dressmaker from Puckyhuddle, Mo., and the Beagles are sharks and Col. Billups is a fake stock promoter. I almost had to laugh in the face of those poor Sticklebacks, believing they were in real society!"
"And did you see how Mrs. Beagle

got an attack of nerves when she thought we might tell the Sticklebacks the truth about the whole of them?"

And then the two ladies had a most enjoyable time for nearly an hour in tearing their acquaintances to pieces. For the bond of their great friendship was that Clara Mudridge-Smith and Mrs. Jarr had strong dislikes in
